

# CATTLE MUESLI

*Natural mix of quality flaked grains to finish and condition cattle*

Sizes: 25KG BAGS ONLY

## ABOUT CATTLE MUESLI

Cattle Muesli is a natural mix of quality flaked grains that is high in energy and protein to finish and condition cattle. The flaked grains have increased digestibility and starch availability, and added molasses helps with feed intake. Cattle Muesli is ideal for show or sale cattle as it provides the nutrition required for optimum health and coat shine.

## PRODUCT FEATURES

Flaked grains for increased digestibility in the rumen. Flaking starts gelatinisation in the grain to improve starch availability.

High energy and protein levels to fatten and finish cattle. The quality protein sources assist in optimum coat health and shine.

Added molasses increases palatability and helps to improve feed intake in your herd

All natural ingredients, GMO & antibiotic free with minimal processing

Made using quality grain ingredients with no nutritionally poor fillers

Made using fresh, premium produce from local WA farmers

***Manufacturers of quality stockfeeds since 1985***

# CATTLE MUESLI

## TYPICAL INGREDIENTS

May contain one or more of the following due to seasonal variations:

Flaked Barley, Flaked Lupins, Steam Rolled Oats, Molasses

## INCLUSIONS

- This feed includes Agolin Ruminant, an oil based feed additive to buffer the rumen and improve feed conversion efficiency.
- In case of feeding to non-target animals, Agolin Ruminant presents no particular risks.
- **This product does not contain Urea**
- **This product does not contain Restricted Animal Material**

**Manufactured and supplied to order in our Western Australian Plant to ensure maximum product freshness**

## FEEDING GUIDE

- Feed as part of a balanced diet
- As a whole grain feed they must not be fed to very hungry stock
- Cattle Muesli should be introduced over a two (2) to three (3) day period using hay or another form of fibre as a supplement
- Feed in conjunction with high quality roughage
- Ensure fresh, clean water is available at all times

## RECOMMENDED INTAKE

The recommended intake of this product should be **0.5-1.5% of live weight**.

## STORAGE INSTRUCTIONS

Store in dry cool and clean place. When stored under correct conditions best before 12 months from packing date.

## NUTRITIONAL ANALYSIS: GUARANTEED MINIMUMS (AS FED)

Crude Protein (%)	17.2	AD Fibre (%)	20.0
Metabolisable Energy (kcal/kg)	11.9	Digestibility (%)	78.1
Phosphorus (%)	0.28	Potassium (%)	0.93
Sodium (%)	0.04	Calcium (%)	0.29
Magnesium (%)	0.14	Copper (PPM)	2.0
Zinc (PPM)	20.0	Manganese (PPM)	20.0
Iron (PPM)	100.0		

## CAUTION

The introduction of high grain pellets to livestock requires a well managed induction phase to minimise the risk of gastrointestinal upsets. Please speak to your animal nutritionist or contact us for more information. **The information in this document is a guide intended for our customers and advice may vary depending on individual circumstances.**

**For order enquiries contact our office or your local stockist**
