

# LICK PELLETS

*Concentrated pellet to complement pastures and improve forage utilisation*

Sizes: **BULKA BAGS OR BULK ORDERS ONLY**

## ABOUT LICK PELLETS

Lick Pellets are a concentrated pellet that provides high levels of energy and quality proteins to complement pasture or forage in a range of production systems. The balanced formula can also improve utilisation of dry pasture or stubble. Lick Pellets are made with Agolin Ruminant to enhance rumen function and feed conversion efficiency while reducing methane emissions.

## PRODUCT FEATURES

-  High energy and protein from quality ingredients with no nutritionally poor fillers to maximise feed conversion efficiency
-  4 mm pellet for improved digestibility and nutrient uniformity. Ideal for feeding out in feeders, tubs or trails, while reducing wastage.
-  Balanced formula supports the nutritional requirements of lambs and sheep and promotes optimum health and growth
-  Contains Agolin Ruminant, an oil-based feed additive for improved rumen function, performance and methane reduction
-  Fortified with our specially formulated ruminant vitamin and mineral premix
-  All natural ingredients, GMO & antibiotic free with minimal processing
-  Made using fresh, premium produce from local WA farmers

**Manufacturers of quality stockfeeds since 1985**

# LICK PELLETS

## TYPICAL INGREDIENTS

May contain one or more of the following due to seasonal variations: Barley, Lupins, Cereal By-Products, Canola Meal, Calcium Carbonate, Lime, Gypsum, Salt, Magnesium Oxide, Sodium Bicarbonate, Vitamin & Mineral Premix, Agolin Ruminant\*

*\*Agolin Ruminant is a carefully balanced combination of microencapsulated essential oil compounds that optimise feed intake and reduce methane emissions. It is certified by the EU Carbon Trust for methane abatement.*

## INCLUSIONS

- This feed includes Agolin Ruminant, an oil based feed additive to buffer the rumen and improve feed conversion efficiency.
- In case of feeding to non-target animals, Agolin Ruminant presents no particular risks.
- This product does not contain Urea
- This product does not contain Restricted Animal Material

**Manufactured and supplied to order in our Western Australian Plant to ensure maximum product freshness**

## FEEDING GUIDE

- These pellets have a very high grain content so must be introduced slowly to hungry stock
- Introduce over a three (3) to five (5) day period using hay or another form of fibre as a supplement
- Product may be fed through suitable lick feeders alone or in conjunction with other cereal grains (also through lick feeders)
- Ensure quality drinking water always available

## RECOMMENDED INTAKE

The recommended intake of this product is:

- Minimum rate of 200g per head per day
- Maximum intake of 600g per head per day

Lick Pellets should comprise 20 to 50% of the diet of most classes of sheep with the remainder made up of varying amounts of cereal grains and roughage.

## STORAGE INSTRUCTIONS

Store in dry cool and clean place. When stored under correct conditions best before 12 months from packing date.

## NUTRITIONAL ANALYSIS: GUARANTEED MINIMUMS (AS FED)

Crude Protein (%)	20.0	Copper (mg/kg)	8.0
Metabolisable Energy (MJ/kg)	11.0	Iodine (mg/kg)	0.5
Vitamin A (IU/kg)	5000.0	Iron (mg/kg)	40.0
Vitamin D3 (IU/kg)	500.0	Manganese (mg/kg)	20.0
Vitamin E (mg/kg)	50.0	Molybdenum (mg/kg)	0.20
Thiamine/B1 (mg/kg)	3.0	Selenium (mg/kg)	0.20
Antioxidant (mg/kg)	5.0	Zinc (mg/kg)	40.0
Cobalt (mg/kg)	0.40	Agolin Ruminant (mg/kg)	50.0

## CAUTION

The introduction of high grain pellets to livestock requires a well managed induction phase to minimise the risk of gastrointestinal upsets. Please speak to your animal nutritionist or contact us for more information. **The information in this document is a guide intended for our customers and advice may vary depending on individual circumstances.**

**For order enquiries contact our office or your local stockist**
