

# GOAT PELLETS

Premium, complete feed for growing, breeding, show and dairy goats

Sizes: **30KG BAGS, BULKA, BULK**

Goat Pellets are a complete and balanced feed formulated to meet the nutritional requirements of all growing, breeding and dairy goats. These highly palatable pellets include a premium vitamin and mineral premix to ensure optimum development, growth and health.

## PRODUCT FEATURES

Pelletised form is highly palatable and designed for easy feeding, minimising wastage and improving nutrient uniformity

Fortified with our premium vitamin and mineral premix to support peak health and function in goats

Made using quality grain ingredients with no nutritionally poor fillers for improved feed conversion efficiency

All natural ingredients, GMO & antibiotic free with minimal processing

Quality protein and energy supports the requirements of all growing, breeding & dairy goats

Made using fresh, premium produce from local WA farmers

Contains Agolin Ruminant, an oil-based feed additive for improved rumen function, performance and methane reduction

***Manufacturers of quality stockfeeds since 1985***

# GOAT PELLETS

## TYPICAL INGREDIENTS

May contain one or more of the following due to seasonal variations: Barley, Lupins, Oats, Oat Hulls, Calcium, Lime, Cereal By-Products, Di-Cal, Salt, Vitamin & Mineral Premix, Agolin Ruminant\*.

*\*Agolin Ruminant is a carefully balanced combination of microencapsulated essential oil compounds that optimise feed intake and reduce methane emissions. It is certified by the EU Carbon Trust for methane abatement.*

## INCLUSIONS

- This product does not contain Urea
- This product does not contain Restricted Animal Material (RAM)

**Manufactured and supplied to order in our Western Australian Plant to ensure maximum product freshness**

## RECOMMENDED INTAKE

The recommended intake of this product should be **1-2% of body weight.**

## FEEDING GUIDE

- Feed as part of a balanced diet
- As a whole grain feed they must not be fed to very hungry stock
- Goat Pellets should be introduced over a two (2) to three (3) day period using hay or another form of fibre as a supplement
- Feed in conjunction with high quality roughage
- Ensure fresh, clean water is available at all times

## STORAGE INSTRUCTIONS

Store in dry cool and clean place. When stored under correct conditions best before 12 months from packing date.

## NUTRITIONAL ANALYSIS (AS FED)

Crude Protein (%)	14.2	Magnesium (mg/kg)	0.19
Metabolisable Energy (MJ/kg)	11.6	Manganese (PPM)	130.0
Acid Detergent Fibre (%)	19.0	Sulphur (%)	0.14
Crude Fibre (%)	13.2	Potassium (g/kg)	0.8
Digestibility (%)	79.0	Copper (mg/kg)	0.30
Calcium (g/kg)	1.1	Iron (PPM)	370.0
Phosphorus (g/kg)	0.62	Water Content (%)	7.8
Salt (g/kg)	0.5	Agolin Ruminant (mg/kg)	50.0

## CAUTION

The introduction of high grain pellets to livestock requires a well managed induction phase to minimise the risk of gastrointestinal upsets. Please speak to your animal nutritionist or contact us for more information. **The information in this document is a guide intended for our customers and advice may vary depending on individual circumstances.**
