

LUPIN FIBRE CUBES

Super fibre mash, low in sugar and starch with no additives to provides cool, grain-free energy and conditioning support

PRODUCT FEATURES

-  Grain-free, low sugar and starch (NSC 5.3%) low fizz fibre supplement mash made using 100% quality lupin hulls
-  Highly palatable and digestible source of fibre to support safe weight management and healthy conditioning
-  No additives make it highly versatile and compatible for feeding with any T&R Mueslis, Pellets or Cubes
-  Natural source of protein and quality amino acids, with half the protein content of whole lupins, to support health and conditioning
-  High in super fibres and natural pectins (prebiotics) to improve gut function and boost healthy gut bacteria
-  Quick-soaking mash is ideal for boosting hydration, fussy eaters or horses with poor dentition
-  Made from 100% Western Australian grown Lupins to support our local farming communities

INGREDIENTS

Sweet Lupin Hulls, Traces of Lupin Kernels

LUPIN FIBRE CUBES

FEEDING GUIDE

For overweight horses and ponies, Lupin Fibre Cubes can be fed in small amounts to add fibre and serve as a base for concentrates or supplements.

For horses and ponies needing weight gain or in work, Lupin Fibre Cubes can be fed in larger amounts to help supply energy and hydration.

Dampened: Add 1-part dry T&R Lupin Fibre Cubes to a minimum of 2-parts water by dry weight and soak to the desired consistency. Always measure the dry weight of your Cubes prior to soaking.

Soaked: To aid hydration, increase the amount of water added to dry Cubes for a sloppier consistency. We recommend feeding Lupin Fibre Cubes soaked for horses that suffer from choke.

Lupin Fibre Cubes can be made in advance. Store in the fridge, and feed within 24 hours of soaking.
