

CALF WEANER PELLETS

High protein pellet formulated to promote growth and development in calves

Age range: 6-8 WEEKS+

Sizes: BULKA BAGS, BULK

ABOUT CALF WEANER PELLETS

Lamb Weaner Pellets are the best performance pellet on the market. The high protein and energy formula supports optimum growth and development in lambs from 6-8 weeks and older.

Suitable for use in creep feeding systems, yarded weaning programs and to supplement weaners once turned out on poor to moderate quality pastures or herbage.

PRODUCT FEATURES

6mm pellet is highly palatable and designed for easy feeding in tubs, bunks or bins. Minimises wastage and improves nutrient uniformity.

Made using quality grain ingredients with no nutritionally poor fillers for improved feed conversion efficiency

Contains Agolin Ruminant, an oil-based feed additive for improved rumen function, performance and methane reduction

High protein and energy formula to support requirements in weaning systems and supplement pastures

Fortified with our specialised vitamin and mineral premix to support the requirements of young, growing animals

All natural ingredients, GMO & antibiotic free with minimal processing

Made using fresh, premium produce from local WA farmers

Manufacturers of quality stockfeeds since 1985

CALF WEANER PELLETS

TYPICAL INGREDIENTS

May contain one or more of the following due to seasonal variations:

Barley, Lupins, Legumes, Oat Hulls, Cereal By-Products, Vegetable Protein Meals, Salt, Calcium, Sodium Bicarbonate, Vitamin & Mineral Premix, Agolin Ruminant*

*Agolin Ruminant is a carefully balanced combination of microencapsulated essential oil compounds that optimise feed intake and reduce methane emissions. It is certified by the EU Carbon Trust for methane abatement.

INCLUSIONS

- This feed includes Agolin Ruminant, an oil based feed additive to buffer the rumen and improve feed conversion efficiency
- In case of feeding to non-target animals, Agolin Ruminant presents no particular risks
- **This product does not contain Urea**
- **This product does not contain Restricted Animal Material and can be fed to ruminants**

FEEDING GUIDE

- Feed as part of a balanced diet
- These pellets have a high grain content so must not be fed to hungry stock
- Calf Weaner Pellets should be introduced over a 3-5 day period using hay or another form of fibre as a supplement
- Avoid any interruptions to the daily feeding pattern. If interruptions occur, re-introduce slowly.
- Ensure fresh, clean water is always available

RECOMMENDED INTAKE

The recommended intake of this product should be **up to 3% of live weight daily.**

Adjust rate according to growth stage and pasture availability.

STORAGE INSTRUCTIONS

Store in dry cool and clean place. When stored under correct conditions best before 12 months from packing date.

Manufactured and supplied to order in our Western Australian Plant to ensure maximum product freshness

NUTRITIONAL ANALYSIS: GUARANTEED MINIMUMS (AS FED)

Crude Protein (%)	21.0	Potassium (g/kg)	3.3
Metabolisable Energy (MJ/kg)	13.0	Chloride (g/kg)	4.3
Fat (%)	2.7	Sulphur (g/kg)	3.8
Lysine (%)	0.52	Copper (mg/kg)	13.0
TDN (%)	66.6	Zinc (mg/kg)	70.0
Calcium (%)	0.77	Manganese (mg/kg)	43.0
Phosphorus (%)	0.4	Selenium (mg/kg)	0.3
Sodium (g/kg)	1.9	Vitamin A (IU/kg)	5000
Magnesium (g/kg)	1.7	Vitamin E (mg/kg)	45.0

CAUTION

The introduction of high grain pellets to livestock requires a well managed induction phase to minimise the risk of gastrointestinal upsets. Please speak to your animal nutritionist or contact us for more information. **The information in this document is a guide intended for our customers and advice may vary depending on individual circumstances.**
